SUMMARY

Experienced Front-End Developer with over 2 years of expertise in development, specializing in React js, Next js, and basics of FAST APIs. Passionate about building user-friendly and visually appealing web applications. I am seeking opportunities to further enhance my skills and contribute to a dynamic team.

SKILLS

- **Programming Languages:** JavaScript, HTML, Python, Tailwind CSS, TypeScript
 - **Frameworks:** React js, Next js
 - **API Framework:** Basics of FastAPI
 - **Databases:** PostgreSQL
 - **Tools:** Git, VS Code, npm, Postman
-

PROFESSIONAL EXPERIENCE

Front End Developer | Tata Consultancy Services | Kolkata, IN Apr 2021 - Nov 2024

- Developed and maintained six UI projects, improving user interfaces for better functionality and user experience.
- I was responsible for developing and implementing user-friendly and visually appealing web applications.
- Leveraging my skills in JavaScript, React, CSS3, HTML5, and Next, I collaborate with a team of developers to deliver high-quality projects.
- I actively participate in all stages of the development process, from requirement gathering to testing and deployment.
- Managed code versions efficiently using Git, ensuring smooth collaboration and delivery.

Data Labelling | Wobot.ai

Internship

Jan, 2021 - Apr, 2021

Data Analyst | Globsyn-3rd Life

Internship

Sep, 2019 - Dec, 2019

PROJECT

Chatbot with OpenAI

- A React-based chatbot interface powered by OpenAI API. This project demonstrates how to integrate GPT models into a frontend application. A React-based chatbot interface powered by OpenAI API. This project demonstrates how to integrate GPT models into a frontend application.
- Skills: React.js · OpenAI API · Cascading Style Sheets (CSS) · JavaScript

Real-Time Disaster Alert and Monitoring System

- Built a web-based system to fetch and visualize real-time disaster and weather alerts using the OpenWeatherMap One Call API.
 - Developed an interactive, map-based UI using Next.js, React, JavaScript (ES6), and Leaflet.js.
 - Implemented a Node.js backend with secure API key handling via environment variables.
-
